

**Mrs. Anita Kumari**

AGE / SEX

34 Y / Female

REFERRED BY

Dr. S. Nair

PATIENT ID

HF-P-004821

SAMPLE

Urine (first morning)

BILL NO

HF-26-000114

REPORTED

12 Jul 2026, 13:35**Urine Pregnancy Test (Beta-hCG)**

Rapid Immunochromatography

TEST	RESULT	UNIT	REFERENCE RANGE
Urine hCG	Positive		Negative

CLINICAL NOTES

- The urine pregnancy test detects human chorionic gonadotropin (hCG) and is most reliable on a first-morning sample.
- A negative result very early after conception may be falsely negative; repeat after 48 to 72 hours if pregnancy is suspected.
- Results should be correlated with the menstrual history and, where needed, a serum beta-hCG.
